

## DELAWARE BIRD RECORDS COMMITTEE

### Delaware State List of Bird Species and the Delaware Review Species List

The Delaware State List of Bird Species contains the following 424 species of birds that have been accepted for Delaware by the Delaware Bird Records Committee (DBRC) as of August 2021. We request documentation for 101 species in **boldface** and marked with an asterisk (\*) that constitute the Delaware Review Species List. Species also marked with a dagger (†) are birds that are on the Delaware Review Species List under certain circumstances. Two are pelagic species that are only reviewable when seen from shore, the Eurasian Collared-Dove that is only reviewable when seen outside of Selbyville, DE, and the Common Raven that is only reviewable south of the C&D Canal. The Addendum lists extralimital subspecies of common local species reported from Delaware that can be identified in the field. All of these marked for review and any other subspecies not on the list currently require documentation.

#### *2020 Updates:*

- Neotropic Cormorant has been accepted by the DBRC and added to the Delaware Bird and Review Species Lists.
- Two species have been removed from the Delaware Review Species List: Black-bellied Whistling Duck and Painted Bunting.

#### *2021 Updates:*

- Black-chinned Hummingbird, Ancient Murrelet, and Bell's Vireo were added to the Delaware Bird and Review Species Lists.
- The species complex "Western Flycatcher" was also added to the list.

**All reports should be sent to: Anthony Gonzon, DBRC Secretary**

The Delaware Bird Records Committee is an independent committee comprised of five reviewers, a President, and a Secretary (either officer may also be a reviewer). Each reviewer serves for five years and must take a 1-year break before returning to the committee as a reviewer. The committee votes to elect officers and new review members. A member of the committee serves on the Delaware Ornithological Society Council and current lists and reports are hosted on the DOS web page. Paper and photographic material from all records are housed at the Delaware Museum of Natural History. Please contact the Secretary for information about past records.
